

NEW PRODUCT RELEASE

This new catalog supplement contains DQE's latest supplies for Public Safety, Industry and First Responders.

HAZMAT RESPONSE TOOLS

Decon Utility Stool

HM805

The Decon Stool is a quick and convenient way to introduce a seating option during the decon process. An integrated bucket provides storage for soap, brushes, sponges and other decon items.

Adjustable Dome Clamp

HMS1450

A DQE exclusive, this dome clamp is unlike any other clamp in that its patented design is fully adjustable, yet fast to install. It features a unique offset pressure plate, rather than one that falls in the center of the tank valve area. This optimized, off-center placement of the pressure foot creates an ideal relation to the primary point of the leak flow to stop leaks fast.

Dome Clamp in Use

Foam Sealing Plugs

Water-activated polyurethane foam plug acts as a fast-acting leak sealant for chemical containment.

HMS1500

Large, football shaped plug

HMS1499

Small, golf ball shaped plug

Foam Plug in Use

Chlorine Institute Emergency Kits

HMS1496

Emergency Kit "A" for US DOT 3A480 & 3AA480 100/150 lb chlorine cylinders.

HMS1497

Emergency Kit B" for US DOT 106A500X concave head chlorine one-ton containers.

HMS1498

Emergency Kit C" for US DOT 105J500W & MC331 tank cars and tank trucks.

Non-Sparking Crash Axe

HMS1575

Designed specifically for its non-sparking capabilities, this Crash Axe is an essential all-in-one, multi-functional HazMat Responder safety tool. This axe provides the utility of a crash axe, hydrant wrench, spanner wrench, pry bar, hand pick, and gas shut-off. Includes a leather head wrap for storage.

PERSONAL PROTECTIVE EQUIPMENT

PhaseCore® XPC Cooling Vest Kit

These cooling vests provide a personal cooling system that is both comfortable and lightweight. This vest set includes: 4 vests, 28 cooling elements for each vest, a carry bag, and more.

PhaseCore XPC Cooling Vest - Black
PhaseCore XPC Cooling Vest - White

Onguuard Hazmax® Knee Boots

HM1256

Protective, chemical resistant, 16" high, steel toe boots for hazardous materials handling. The comfortable design of this steel toe boot makes it ideal for daily use or for equipping employees with protective footwear for a spill emergency. Available in sizes: S-XL.

Onguuard Hazmax® EZ-Fit Boots

HM1255

These 11" high, steel toe boots are designed for easy donning and doffing while wearing a chemical protective suit. EZ-Fit boots feature a wider opening to assist with wearing protective coveralls with attached booties and large kickoff lugs for easy, hands-free removal. Available in men's sizes: 6-15.

North® RU6500 APR Kit

HM5410

Complete Air Purifying Respirator APR with one North RU6500 Silicon Full Facepiece and two North Defender Multi-Purpose Respirator Cartridges. The North RU6500 APR is a NIOSH-approved respirator when configured with North N-Series filters and cartridges.

North® RU6500 Silicone Full Facepiece

HM5411

Provides lightweight, all day comfort and broad configuration flexibility. This reusable facepiece is the direct replacement for the SperiAir Survivair Opti-Fit APR and convertible facepiece line. Honeywell redesigned the Opti-Fit to accept the popular North N-Series particulate, gas, and vapor filters and cartridges.

North® Respirator Accessories

North® Defender Multi-Purpose Cartridge

HM5412

NIOSH approved for gases and vapors. For use with North full or half-face air purifying respirator APR.

Shower Cap for North® N-Series P100 Filter

HM5414

Protects N-Series P100 Particulate Filter from water spray during abatement & decontamination.

North® N-Series P100 Particulate Filter

HM5413

P100 filter for use with North full or half-face air purifying respirator APR. This particulate filter is a minimum 99.97% efficient for all particulates.
