EMERGENCY RESPONSE

EQUIPMENT & SUPPLIES CATALOG

The DQE Mission

DQE provides practical products and expert support that improves the safety and readiness of the response and healthcare community.

A History of Response

Since 1990, the team at DQE has used their professional experience on the front line - as firefighters, HazMat specialists, emergency managers, healthcare professionals, and safety specialists to design and enhance products that are appropriate for the work at hand.

PROVEN

DQE sets the standard for how individuals, response agencies, and municipalities think about emergency preparedness and response. While DQE products are designed for the response community, we understand that your needs may be unique. Product customization and adaptation to your specifications are all part of the DQE process. So whether it's delivering readymade solutions or responding to your individual requirements, DQE helps you become *Ready now for what's next*™.

PRACTICAL

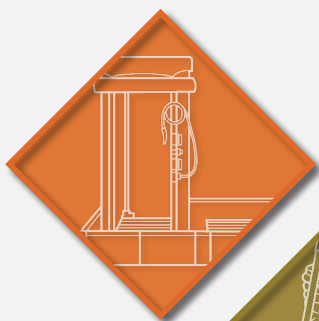

Today it's an industrial chemical spill, but tomorrow it could be something on a far larger scale. Because you encounter drastically different scenarios on a day-to-day basis, DQE designs products to adapt to the appropriate level of response to ensure the greatest flexibility.

PREPARED

You can count on DQE to carry the products you need to be prepared for emergency response. If you don't see what you need, just ask. Our customer support team will gladly find the products to customize your order and maximize your preparedness investment.

Decontamination Showers

DQE® decontamination showers give responders the ability to scale their efforts to the appropriate level. From the highly durable Indestructo® shower for field decon, to the privacy of the Standard Decontamination Shower, DQE has an assortment of decon options for a variety of situations and needs.

Indestructo® Decon Shower System **HMK7000**

This virtually indestructible DQE shower is designed for responder decon in rugged field conditions. The shower is constructed of highly break resistant ABS pipes and fittings, with specially designed shower heads to maximize durability. The Indestructo meets the flow rates, spray pattern, and other performance characteristics set by the ANSI/ISEA 113-2008 standard. System includes Indestructo Decon Shower with vinyl carry bag, Delta Frame Collection Pool, and Elevation Grid.

HM7000 Shower only

HM1025 Delta Frame Collection Pool only

Shower Features:

- Unique quick-connects for fast assembly
- Five shower heads
- Two side panels to reduce overspray
- Stores and transports in a vinyl carry bag
- Includes straps and stakes for use in high wind
- Approximate set-up time: 2-3 minutes (based on one trained responder)

System Specifications:

Shower

- Total output: 15 gpm (3 gpm per shower head)
- Dimensions: assembled - 42" x 34" x 90"
unassembled - 48" x 16" x 16"
- Weight: 35 lb
- Water inlet: standard garden hose

Pool

- See Delta Pool HM1025, page 10

Elevation Grid

- See Elevation Grid HM1023, page 14

AEL# 08D2-03-SHWR

Quick Response™ Shower System

Designed for field response, the Quick Response Shower is durably constructed to withstand frequent training, and compact enough to fit in a portable vinyl carry bag. The Quick Response Shower meets the flow rates, spray pattern, and other performance characteristics set by the ANSI/ISEA 113-2008 standard. System includes Quick Response Shower with carry bag, Compact Collection Pool, and Elevation Grid.

HMK3101A System with Aluminum-frame Compact Collection Pool

HMK3101S System with Steel-frame Compact Collection Pool

HM3000C Shower only

Shower Features:

- Unique quick-connects for fast assembly
- Three showerheads plus an independent hand-held sprayer for thorough decontamination
- Vinyl carry bag for shower storage and transport
- Approximate set-up time: 2-3 minutes (based on one trained responder)

System Specifications:

Shower

- Total output: 10 gpm (2.5 gpm per shower head)
- Dimensions: assembled - 43" x 47" x 89"
unassembled - 49" x 16" x 10"
- Weight: 45 lb
- Water inlet: standard garden hose

Pool

DQE Decon Shower Quality Guarantee

We stand behind the quality of DQE decontamination showers. Our decon showers carry a lifetime warranty against manufacturing and material defects. We offer one free replacement part over the life of any shower we manufacture (part code from product insert required).

DECONTAMINATION

Standard Decontamination Shower System

The "Standard" in decontamination showers, this system is the leading stand-alone solution for victim decon. The newly updated Standard Decon Shower meets the flow rates, spray pattern, and other performance characteristics set by the ANSI/ISEA 113-2008 standard. System includes shower with two vinyl carry bags, Standard Collection Pool (4' x 8'), and two Elevation Grids.

HMK1101A System with Aluminum-frame Standard Collection Pool

HMK1101S System with Steel-frame Standard Collection Pool

HM1001C Shower only

Shower Features:

- Unique quick-connects for fast assembly
- Fully collapsible design
- Four shower heads plus an independent hand-held sprayer
- Durable, chemical-resistant shower enclosure
- Translucent roof panel to allow light into shower for safety
- Shower stores and transports in two vinyl carry bags

System Specifications:

Shower

- Total output: 12 gpm (3 gpm per shower head)
- Dimensions: assembled – 42" x 36" x 84"; unassembled – 74" x 27" x 27"
- Weight: 104 lb
- Water inlet: standard garden hose

Pool

Replacement parts available!

We know that sometimes accidents happen, so we offer replacement parts to all our DQE decontamination showers.

AEL# 08D2-03-SHWR

Decon Privacy Corridor System

This tailored, durable enclosure and Standard Decontamination Shower creates a decon system of three private chambers for each stage in the decon process. Victims disrobe and prepare for showering in stall one, shower in stall two, then proceed to stall three to dry off, don gown, and prepare for further treatment or transport. Translucent roof panels allow light into the corridor for safety every step of the way. The Decon Privacy Corridor System includes the newly updated Standard Decontamination Shower System (see above), Decon Privacy Corridor, and a vinyl carry bag.

HMK1300A System with Aluminum-frame Standard Collection Pool

HMK1300 System with Steel-frame Standard Collection Pool

HM1003 Privacy Corridor Enclosure only

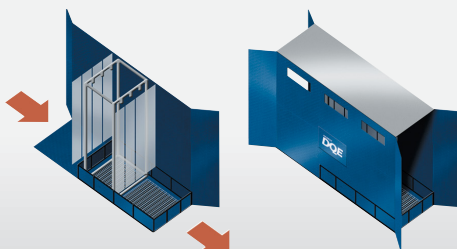

System Specifications:

Shower, Pool, Grids

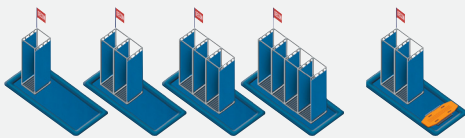

- See *Standard Decontamination Shower System HMK1101*, (see above)

Privacy Corridor

- Dimensions: assembled – 144" x 48" x 84"; unassembled – 74" x 9" x 9"
- Weight: 65 lb
- Material: chemical resistant vinyl

AEL# 08D2-03-SHWR

Modular design adjusts to each incident.

MASCAS® Shower System *HMK4101*

The MASCAS Shower can be set up quickly and easily expanded to decontaminate multiple individuals simultaneously using 1-4 shower stalls and two additional hand-held sprayers. Divider curtains separate individual stalls for privacy. Unlike most mass casualty systems costing \$10,000 to \$20,000 and more, the DQE system is designed for cost-effective deployment as needed, delivering maximum flexibility and value. System includes MASCAS Shower and MASCAS Collection Pool with carry vinyl bags, and MASCAS Elevation Grids.

HM4000 Shower only

Shower Features:

- Modular design adjusts to each incident (1-4 stalls)
- At least three showerheads per stall (2.5 gpm each)
- Two independent hand-held sprayers for additional capacity
- Durable construction allows for repeated use
- Includes decon identification flag
- Easy transport and deployment from four durable vinyl bags
- Five divider curtains

System Specifications:

Shower

- Four stalls
- Total output: 35 gpm
- Dimensions: assembled – 120" x 36" x 84"; unassembled – 87" x 35" x 26"
- Weight: 180 lb (divided among four carry bags)
- Water inlet: standard garden hose

Pool

- See *Flexible Containment Pool HM10126*, page 11

Elevation Grids

- See *Elevation Grid HM1023*, page 14

AEL# 08D2-03-SHWR

Easy Roller™ Non-Ambulatory Decon System

Easily decontaminate non-ambulatory victims. Four independent rollers mount to the pool frame in seconds and allow a backboard to pass over the pool with minimal effort. System includes Standard Collection Pool, four stainless steel rollers, safety stops, and vinyl carry bag for rollers.

HMK11045A System with Aluminum-frame Standard Collection Pool

HMK11045S System with Steel-frame Standard Collection Pool

HM1045 Rollers only, includes vinyl carry bag

System Specifications:

Pool

- Dimensions: unfolded - 48" x 96" x 14"; folded - 48" x 14" x 14"

Easy Rollers (4)

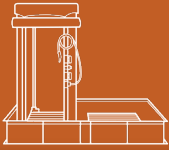

- Dimensions: each – 49" long; in storage bag - 52" x 8" x 8"
- Weight: 37 lb
- Load capacity: 300 lb

DECONTAMINATION

Decon-in-a-Bag® HM6000

Everything you need to perform gross field decontamination in one convenient vinyl carry bag. Ideal for responders and facilities with limited HazMat resources (law enforcement, EMS, schools, public health, and urgent care centers).

Each Kit Contains:

- Heavy-duty vinyl carry bag
- Decon Wand
- Compact Water Supply Hose
- Splash Suit Personal Protection Kit (2)
- Don-it® Post-Decon Personal Privacy Kit for victims (4)
- Collection bags for contaminated clothing (4)
- Decon Shower Sponge
- Liquid soap
- Waterproof decontamination instructions

AEL# 08D2-02-EDCS

Decono® Shower HM2000

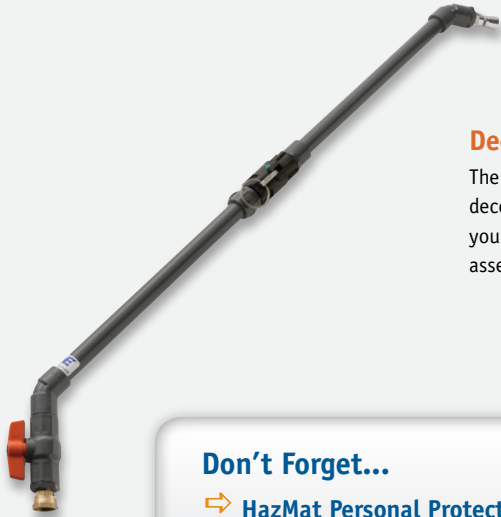

A cost-effective, ultra-light alternative to full-size showers. Designed for limited-space, tactical or field applications. Top shower head can be used independently or together with boot wash to provide thorough decontamination. Includes a vinyl carry bag for transport and storage.

Shower Specifications:

- Total output: 5 gpm (2.5 gpm per shower head)
- Dimensions: assembled – 87" x 57" x 26"; unassembled – 12" x 22" x 41"
- Weight: 16 lb
- Water inlet: standard garden hose
- Approximate set-up time: less than 2 minutes (based on one trained responder)

AEL# 08D2-03-SHWR

Decon Wand *HM6006*

The perfect accessory to easily expand your existing system, or use alone for small-scale decon procedures. Simply connect this hand-held device to a standard garden hose and you are ready to begin. Wand disassembles into two pieces for compact storage, and assembles with quick-connect coupling. Valve allows for shutoff and water flow adjustment.

Don't Forget...

- ⇒ [HazMat Personal Protection Kit](#) page 26
- ⇒ [Collection Pool](#) page 10-11

Specifications:

- Total output: 2.5 gpm
- Dimensions: assembled – 44.5" x 6" x 2.5";
unassembled – 25" x 6" x 2.5"
- Weight: 3 lb
- Approximate set-up time: 30 seconds

AEL# 08D2-03-SHWR

K-9 Decon Kit *HMK901*

Working dogs have the potential to come into contact with a variety of harmful contaminants. Reduce the effects of contamination by cleaning your canine at the scene. This portable, affordable kit includes everything you need to clean your canine and protect yourself from cross-contamination.

Each Kit Contains:

- Flexible Containment Pool (30" x 30" x 4" unfolded)
- Compact Water Supply Hose (50')
- Canine Decon Wand
- Splash Personal Protection Kit
- Liquid soap, unscented
- Four disposable Dry-it™ Towels
- Canine Decon Standard Operating Guidelines (SOGs)
- Vinyl carry bag

Water Collection

Pools, liners, barrels, and bladders for decon wastewater collection and leak containment.

DQE Pools are Available in the Following Custom Colors:

Delta Pool

The Delta Pool has a unique triangle sidewall that gives it sturdy containment support without the need for L-brackets or bulky foam. Constructed of 22 oz. PVC. Delta sidewall support that folds down for easy roll over.

- HM1025** Delta Frame Collection Pool - 48" x 40" x 6"
- HM1026** Delta Frame Collection Pool - 4' x 8' x 6"
- HM1027** Delta Frame Collection Pool - 4' x 12' x 6"

AEL# 08D2-01-LDCD

Standard Collection Pool

The ideal collection pool for your decontamination equipment. This large volume framed pool is sturdy enough to support a victim on a backboard and can hold two DQE Standard Showers for dual decontamination. The pool folds for easy storage and features integrated carry handles for quick deployment. The heavy-duty, chemical resistant liner can be replaced as needed. Each pool holds two elevation grids (see page 10).

- HM1048AB** Aluminum-frame Standard Collection Pool
- HM1048SB** Steel-frame Standard Collection Pool
- HM1050** Replacement liner

Don't Forget...

- ⇒ [Electric Water Pump](#) page 13
- ⇒ [Wastewater Hose](#) page 13
- ⇒ [Water Supply Hose](#) page 13

Specifications:

- Dimensions: unfolded - 48" x 96" x 14"; folded - 48" x 14" x 14"
- Weight: aluminum frame - 47 lb, steel frame - 63 lb
- Capacity: 300 gallon

AEL# 08D2-01-LDCD

Compact Collection Pool

Designed for use with all DQE single-stall showers, this pool is best for limited-space applications. Same sturdy design as the Standard Collection Pool, but half the length. Holds one elevation grid (see page 14).

- HM1044AB** Aluminum-frame Compact Collection Pool
- HM1044SB** Steel-frame Compact Collection Pool
- HM1051** Replacement liner

Specifications:

- Dimensions: unfolded – 48" x 48" x 14"; folded – 48" x 8" x 14"
- Weight: aluminum frame – 26 lb, steel frame – 35 lb
- Capacity: 150 gallon

  AEL# 08D2-01-LDCD

Flexible Containment Pool

An inexpensive, quick deploying collection pool for versatile use in decon and HazMat operations. This heavy-duty 18 oz. vinyl fabric is highly resistant to tears and punctures, folds up compactly for storage, and can be decontaminated for reuse. Unless otherwise noted, sides and rims are self-supported, requiring no additional wall support during use. Custom sizes and colors available.

- HM1040** 30" x 30" x 4", 15 gallon capacity
- HM1041** 4' x 4' x 4", 36 gallon capacity
- HM1042** 5' x 5' x 4", 56 gallon capacity
- HM1043** 5' x 10' x 4", 112 gallon capacity (Sidewall angled support straps and embedded vertical stiffening pegs included)
- HM10126** 5.5' x 11' x 4", 225 gallon capacity (Sidewall aluminum support brackets included)

  AEL# 08D2-01-LDCD

Flexible Wastewater Tank

Fully collapsible wastewater bladder is convenient to use and folds flat for easy storage. Inlet sized for standard garden hose with 1.5" ball valve for drainage. Tank made of 20 oz chemical-resistant vinyl. Custom sizes are available.

- HM150B** 150 gallon – 48" x 60" x 12" (filled), weight: 23 lb (unfilled)
- HM1000B** 1000 gallon – 144" x 84" x 24" (filled), weight: 60 lb (unfilled)

  AEL# 08D2-01-WWCD

Decon Wastewater Barrel **HM450**

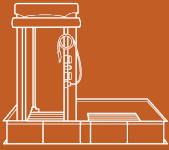

Closed-head drum constructed of high-molecular, FDA approved polyethylene. Crack-resistant walls are .125" thick; will not rust or corrode.

Specifications:

- Dimensions: 23" x 35.8"
- Capacity: 55 gallon
- Weight: 26 lb

 AEL# 08D2-01-WWCD

Decon Brushes

Round Scrub Brush *HMS1521*

Multi-purpose stiff bristled brush that can be used in suit and equipment decon.

AEL# 08D2-01-TDEW

Short Handled Brush *HMS1522*

This short handled, chemical resistant brush is designed to fit your hand for easy cleanup. This highly durable brush is excellent for remediation and equipment decontamination. Stiff polyester bristles. Bristle block dimensions: 3" x 10". Bristle length: 1.3".

AEL# 08D2-01-TDEW

Tool brush *HMS1523*

Stiff-bristled tool brush for decontaminating hard to reach surfaces. Excellent for cleaning respirators, helmets, monitors, or other hazmat equipment. Stiff polyester bristles.

Bristle length: 1".

Brush length: 11".

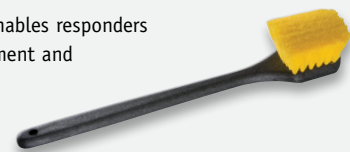

AEL# 08D2-01-TDEW

Decon Responder Brush *HM550*

Long-handled, stiff-bristled brush enables responders to thoroughly decontaminate equipment and protective suits prior to doffing.

AEL# 08D2-01-TDEW

Decon Shower Sponge *HM556*

Disposable, long-handled sponge allows victims to decon themselves gently, yet thoroughly.

AEL# 08D2-03-TDEW

Supersoft Decon Brush

Used for decontaminating skin or HazMat suits. Flow-thru capability. For use with either the Decon Brush Handle (HM544) or the Telescoping Decon Brush Handle (HM545).

HM540 Supersoft Decon Brush - 8"
HM541 Supersoft Decon Brush - 10"

AEL# 08D2-01-TDEW

Chemical Resistant Decon Brush - 8" *HM542*

Used for decontamination of HazMat suits. Flow-thru capability. Has green, soft nylux bristles that are gentle on protective gear, and high heat and chemical resistant. For use with either the Decon Brush Handle (HM544) or the Telescoping Decon Brush Handle (HM545).

AEL# 08D2-01-TDEW

Chemical Resistant Decon Brush - 10" *HM543*

Used for decontamination of HazMat suits. Flow-thru capability. Has orange, soft nylux bristles that are gentle on protective gear, and high heat and chemical resistant. For use with either the Decon Brush Handle (HM544) or the Telescoping Decon Brush Handle (HM545).

AEL# 08D2-01-TDEW

Decon Brush Handle *HM544*

60" handle for use with DQE brush heads. Standard duty fiberglass 15/16" pole handle.

AEL# 08D2-01-TDEW

Telescoping Flow-Thru Decon Brush Handle *HM545*

For use with decon brush heads. Length extends from 38" to 71". Flow-thru capability has water on/off switch. Has soft grips for comfortable handling.

AEL# 08D2-01-TDEW

Decon Accessories

Compact Water Supply Hose **HM202**

Yellow 50', flat, rolled hose. This durable hose minimizes storage without reducing flow capacity. 0.5" I.D. Standard garden hose fittings.

 AEL# 08D2-01-TDCS

Wastewater Hose **HM1065**

Red 25' heavy-duty hose connects to both our electric and manual water pumps and directs contaminated water to wastewater container. 0.5" i.d. with a standard hose fitting.

  AEL# 08D2-03-TDEW

Water Supply Hose **HM200**

Grey 50', heavy-duty hose. For use with hot or cold water. 0.5" i.d. with a standard hose fitting.

  AEL# 08D2-03-TDEW

Fire Hose Reducer Coupling **HM210**

Reduces a 1.5" NHT fire hose to one standard male garden hose fitting. Made of alloy. Contact us for additional available sizes and thread types.

  AEL# 08D2-03-TDEW

Electric Water Pump **HM1060**

Pumps water from collection pool to wastewater container (see page 9). Uses standard garden hose. 110V, 19 gpm maximum output. Extension cord sold separately.

AEL# 08D2-03-TDEW

Extension Cord **HM1070 (not shown)**

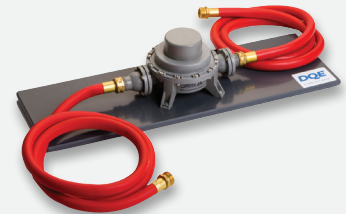

12/3 gage extension cord that is safe for outdoor use with electric water pump or other decon equipment requiring electricity. Length: 50'.

 AEL# 08D2-01-TDCS

Manual Water Pump **HM1061**

Foot-activated operation. Chemical resistant Neoprene diaphragm and Delrin body. Comes complete with two 6' lengths. Standard garden hose fitting. Total output: 10 gpm.

  AEL# 08D2-03-TDEW

Single Shower Fire Hose Reducing Kit **HM208**

Reduces a 1.5" NHT fire hose to one standard male garden hose fitting. Includes pressure-limiting valve and 8' heavy duty garden hose. Contact us for additional available sizes and thread types.

  AEL# 08D2-03-TDEW

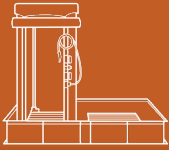

Fire Hose Reducing Manifold **RV100**

Constructed of schedule 80 PVC piping and durable brass spigots, this manifold reduces a 1.5" fire hose down to four standard garden hose spigots. Connects to fire hose using attached alloy swivel adapter.

  AEL# 08D2-03-TDEW

Decon Accessories

Decon Clothes Bucket with Lid **HM350**

Prevents cross-contamination and secures personal items. Meets standards for collecting and containing waste items such as contaminated clothing and towels. Capacity: 5 gallon.

AEL# 08D2-01-TDCS

Zone Tarp

Zone Tarps are available in various colors for designating zones in a decontamination corridor, triage, or other response areas. The 14 oz tarp fabric is resistant to cold weather, fraying and tearing. The zone tarps are waterproof and have built-in UV protection with heat-welded corners.

Additional colors, sizes, and vinyl weights are available, contact us for details.

Dimensions: 12' x 12'. 14 oz vinyl coated polyester. Tear and mildew resistant. Rust resistant brass grommets every 2' along all the edges and at corners.

HM1036 Zone Tarp - Red

HM1037 Zone Tarp - Yellow

HM1038 Zone Tarp - Green

HM1039 Zone Tarp - Black

AEL# 08D2-03-TDEW

Economy Ground Tarp **HM1030**

Provides splash protection for the decon area and protects pool bottoms from abrasion and puncture. Made of 3 oz woven polyethylene. Dimensions: 16' x 20'.

AEL# 08D2-03-TDEW

Sandbag **HM1075**

Sandbags help to stabilize equipment and ground tarps in windy conditions. Dimensions: 8.5" x 10" x 2". Weight - 5 lb. Pre-filled. Heavy-duty vinyl sealed. Attached carry handle. Hook strap to secure to equipment.

Sack-it™ Clean-Up Dispenser **HM375**

Convenient and portable, this system allows contaminated clothing, linens or waste to be collected, contained and identified simply and affordably. Kit includes a folding bag holder and a box of 20 super-thick, 3-mil bags with draw-cord closure. Replacement bags available.

Sack-it™ Clean-Up Bags **HM380**

Heavy-duty, 3-mil replacement bags with draw-cord closure.

Bag includes writing space for listing contents. Box of 20.

AEL# 08D2-01-TDCS

Dry-it™ Disposable Towels **HM705**

The "it" is up to you!

Soft enough for skin, strong enough for spills, these versatile, disposable towels are made of soft, absorbent material and are ideal for drying victims after decontamination. Bath-towel size and extra absorbency mean they're great for clean-up. They come in their own easy-to-use dispenser box, so they're simple to store and transport. 100 towels per roll.

AEL# 08D2-01-TDCS

Elevation Grid

Prevents responders from standing in contaminated water. Constructed of durable polypropylene.

HM1023 Elevation Grid - 36" x 24" x 5.5", use two Standard Collection Pool, one for Compact Collection Pool

HM1022 MASCAS® Elevation Grid - 24" x 24" 2.75", use eight for MASCAS Collection Pool

AEL# 08D2-03-TDEW

Decon Sprayer

Easily apply soap solutions to responders during the decontamination process. Lightweight with shoulder strap. Pressure relief valve. No spill funnel top. Adjustable nozzle sprayer.

- HM6210** 2 Gallon
- HM6211** 1 Gallon

 AEL# 08D2-03-TDEW

Storage Bin HM250

Handy storage for your HazMat personal protection equipment and supplies. High-density polyethylene with attached hinged cover opens and closes easily for ready access. Hand grips for carrying; non-slip bottom surface. Dimensions: 28" x 20.5" x 15.5". Capacity: 4.2 cu. ft.

 AEL# 19MH-00-CONT

Safety Seals RP700 (not shown)

Securely deters entry, yet is easily removed. Each plastic security seal has 30 locking positions. Self-locking plastic seal - no tools required. Box of 20.

Privacy Curtain MC4022

The portable, disposable solution to privacy for a variety of applications. Constructed of lightweight PVC. Ships unassembled. Replacement screens available. 70" H x 63" W, 3 lb, collapsible.

- MC4022RS** Replacement Screens - box of 3

Disposable Washcloths HM706

Soft, disposable washcloths for use during decontamination. Dimensions: 10"x10". Box of 40.

  AEL# 08D2-01-TDEW

Zone Tape

Zone Tape creates a barrier to identify zones in a HazMat event. The tape is lightweight, but strong enough to be reused many times. Deploy rapidly by wrapping around trees, poles, and barrels; or it can be secured to walls or barricades. The hot zone is where the contaminated area is located. The warm zone is where the decontamination area is located. The cold zone is for post-decon treatment or the command post. 500 ft. roll.

- HM4071** Hot Zone Tape
- HM4072** Cold Zone Tape
- HM4073** Warm Zone Tape

 AEL# 08D2-01-TDCS

Zone Tape Dispenser HM408

Dispenser virtually eliminates problems with dispensing barricade tape. Easy unroll tape without tangling or dropping the roll. A built-in cutting edge conveniently cuts tape to the desired length. Holds 500 or 1000 foot rolls of 3 inch wide barricade tape.

 AEL# 08D2-01-TDCS

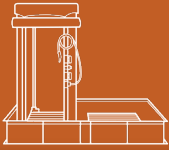

Barricade Tape

Secures area during a HazMat incident.

- HM405** "Hazardous Materials. Do Not Enter" - 500'
- HM415** "Caution" - 500'
- HM416** "Caution" - 300'

 AEL# 08D2-01-TDCS

Personal Privacy Kits

Prompt removal of victims' clothing can immediately eliminate over 80% of the contaminating agents from a hazardous materials incident. DOE personal privacy kits give victims an easy way to ensure modesty before, during, and after decontamination.

Doff-it® Personal Privacy Kit – Adult

The original — designed to increase victim compliance with clothing removal for decontamination. The Doff-it large over-garment lets victims disrobe while remaining completely covered. Each sealed kit contains a Doff-it personal privacy garment (fits size XS to XXXL), collection bag for contaminated clothing, clear zipper-seal plastic bag for personal valuables, foot covers, moist towelettes, dry paper towel and pen. Excellent for field decontamination in mass casualty incidents.

HMDOFFIT Individual kit

HMDOFFBX Box of 20 kits

  AEL# 08D3-01-CLOM

Doff-it® Personal Privacy Kit – Youth

Identical to the Doff-it Personal Privacy Kit for adults, but with a youth-sized overgarment and foot covers for victims from 5 to 12 years old.

HMDOFFIT-Y Individual kit

HMDOFFBX-Y Box of 20 kits

  AEL# 08D3-01-CLOM

5 Easy Steps for Using the Doff-it Personal Privacy Kit:

1 Remove overgarments and any other clothing that doesn't compromise privacy. Place these items in the provided orange bag.

2 Place white Doff-it gown over clothing.

3 Remove personal items and valuables and place them in the outer red bag. You will keep this bag with you.

4 Bring arms inside of the Doff-it and undress. Remove all clothing and place it in the orange bag.

5 With the pen, write your name on both bags. Use the wet wipe and towel to wipe away a residue on your skin. Await further instruction for decontamination.

An Important First Step to Decon is Removing Contaminated Clothing.

Don-it® Post-Decon Privacy Kit – Adult

While Doff-it provides privacy before decontamination, the Don-it kit is the original post-decon kit that ensures the same privacy and protection after soap and water showering. Each sealed kit includes a Don-it personal privacy garment, foot covers, drying towel, emergency warming blanket and small hair brush, all in a compact package.

HMDONIT Individual kit

HMDONBX Box of 20 kits

  AEL# 08D3-01-CLOM

Don-it® Post-Decon Privacy Kit – Youth

Identical to the Don-it Post-Decon Privacy Kit for adults, but with a youth-sized overgarment and foot covers for victims from 5 to 12 years old.

HMDONIT-Y Individual kit

HMDONBXY Box of 20 kits

  AEL# 08D3-01-CLOM

5 Easy Steps for Using the Don-it Personal Privacy Kit:

1 Complete a soap and water decontamination procedure.

2 After decon showering, dry off using the supplied towel.

3 Put on the Don-it gown and foot covers before leaving the shower area.

4 Always follow the emergency responders' instructions about where to proceed for further treatment, if any.

5 The thin, silver Mylar® blanket provides comfort and protection in low temperatures.

HazMat Response

HazMat Smart Strip™ HM420

Arm yourself with information with the HazMat Smart Strip. Identifies eight classes of chemicals and uses a simple color-code system. The HazMat Smart Strip is equipped with a peel-and-stick backing or can be clipped to the responders clothing ensemble. The reagent strip produces a visible color change when exposed to a chemical from the corresponding category. The eight reagents are self-contained and activated by removing the protective covering that preserves the indicator layer until ready for use. No additional buffers or reagents are required. Sold individually.

Reagent	Paper Color	Positive Indication	Sensitivity Level
Chlorine	yellow/peach	blue/white/blue halo	1 ppm
pH	orange	red/blue	above or below neutral
Fluoride	pink	yellow/white	20 ppm
Nerve	tan	gold/red/green	in contact with G,H,V agents
Oxidizers	white	blue/violet	1 ppm
Arsenic	white	yellow/brown/black	0.5 ppb
Hydrogen Sulfide	white	brown/black	5 ppm
Cyanide	green	blue	0.2 ppm

Warn responders of the presence of hazardous chemicals with the HazMat Smart Strip. Identify 8 classes of chemicals and with a simple color-code system.

Non-Sparking Tool Kit **HMS1560**

Tool kit for first responders and clean-up crews. Non-sparking, corrosive-resistant tools for the discriminating professional. Packaged in a convenient carry bag. Tools also available separately.

- HMS1561** Non-Sparking Bung Wrench
- HMS1562** Non-Sparking Pipe Wrench
- HMS1563** Non-Sparking Adjustable Wrench
- HMS1564** Non-Sparking Pliers
- HMS1565** Dead Blow Hammer
- HMS1566** Non-Sparking Wire Brush
- HMS1567** Non Sparking Putty Knife
- HMS1568** Non Sparking Knife
- HMS1569** Non-Sparking Pry Bar
- HMS1570** Non-Sparking Chisel
- HMS1571** Non-Sparking Pail Opener

 AEL# 030E-04-KTTL

HazMat Tool Sash **HMS1580**

A DQE original, the HazMat Tool Sash is the most practical way to carry tools into the hot zone. Constructed of 22 oz vinyl, the sash is highly durable, but flexible for versatility. With a 68" long, 2" wide adjustable nylon strap and heavy-duty clips and quick release, it easily fits over personal protective gear.

**Hands free solution
for carrying tools
into the hot zone.**

HAZMAT RESPONSE

Spill Kit - 5 Gallon *HMS1400B*

Complete 5 gallon kit that quickly contains incidental chemical spills.

Kit Includes:

- 5-gallon bucket w/screw lid
- Hazardous waste label
- Absorbent socks (2) - 3.25" x 42"
- Putty sticks (2)
- Absorbent pads (6)
- Absorbent pillows (2)
- Pair of Nitrile gloves
- Goggles

AEL# 030E-03-KTCL

Recovery Containers

These Labpack and Overpack containers can be used for damaged or leaking drums, collection and transport of used sorbents, and containment of hazardous solids.

- HMS1795** Overpack Drum - 95 gallon
- HMS1765** Overpack Drum - 65 gallon (not pictured)
- HMS1730** Labpack with Lever Lock Lid, 30 gallon
- HMS1720** Labpack with Screw Top Lid, 20 gallon

AEL# 19GN-00-OPCK

Flexible Containment Pool

An inexpensive, quick deploying collection pool for versatile use in decon and leak operations. This heavy-duty 18 oz. vinyl fabric is highly resistant to tears and punctures, folds up compactly for storage, and can be decontaminated for reuse. Sides and rims are self-supported, requiring no additional wall support during use. Custom sizes and colors available.

- HM1040** 30" x 30" x 4", 15 gallon capacity
- HM1041** 4' x 4' x 4", 36 gallon capacity
- HM1042** 5' x 5' x 4", 56 gallon capacity
- HM1043** 5' x 10' x 4", 112 gallon capacity

AEL# 08D2-01-LDCD

Universal Leak Control Kit

Designed to control leaks from punctures, corrosion, seam cracks and more. The variety of included plug and patch tools are useful regardless of surface contour and shape of hole. Kit features screw and "T" patches, ball and taper surface plugs, epoxy putty, lead wool, barrier tape, wood wedges and all necessary tools and hardware.

HMS1501 Universal Leak Control Kit "AE"

HMS1501NS Universal Leak Control Kit - Non-Sparking Tools "AE-NS"

Additional Leak Control Kits (not shown)

HMS1505 Small Pipe Leak Kit "C-2"

HMS1505NS Small Pipe Leak Kit - Non-Sparking Tools "C-2 NS"

HMS1508 Wedges, Putty, and "Stop-It" Kit "WPS"

 AEL# 030E-03-KTCL

DQE carries the full line of Edwards & Cromwell Spill Kits. Replacement parts available.

Pipe Plugger Kit "C-1" HMS1502

Everything you need to control a leaking pipe. Plug leaking gas meters, tank truck valves, water pipes, and hundreds of other uses. No complicated procedures required and no additional tools needed.

 AEL# 030E-03-KTCL

Drum Repair Kit

Contains components to repair punctures, cracks, gashes or surface corrosion in almost any type of low pressure container.

HMS1503 Drum Repair Kit "D"

HMS1503NS Drum Repair Kit - Non-Sparking Tools "D-NS"

 AEL# 030E-03-KTCL

Roll-Over Kit "F" HMS1504

A kit for large holes in tanker trucks or cars that do not require wrapping chains or cables around the vessel. Simply assemble, apply and conform.

 AEL# 030E-03-KTCL

HAZMAT RESPONSE

DQE proudly provides spill remediation tools from Remco®.

All of these products are tough, lightweight, and economical. Each hand tool is ergonomically designed to reduce strain when lifting and is chemical, corrosion, and spark resistant.

Remediation Tool Kit *HMS1510*

Grab and go with all of the tools you need for almost any type of spill. Perfect for those situations when you're not sure what you'll be facing. Comes in tough, water resistant, nylon duffel bag with shoulder strap and carry handles.

- HMS1512** Two-Piece Safety Shovel
- HMS1517** Compact Extension Handle
- HMS1514** Push Broom - Head Only
- HMS1516** HazMat Squeegee - Blade Only
- HMS1519** Medium Bristle Brush - Head Only
- HMS1518** Large Scoop Nylon Duffel Bag

Compact Extension Handle *HMS1517*

Extension fiberglass utility handle for HazMat clean-up brushes & blades. Expands from 28" to 47" to give you extra reach when you need it.

Push Broom - Head Only *HMS1514*

Broom head with stiff PET bristles. Connects to Compact Extension Handle (HMS1517).

HazMat Squeegee - Blade Only *HMS1516*

Polyethylene 30" squeegee blade. Connects to Compact Extension Handle (HMS1517).

Medium Bristle Brush - Head Only *HMS1519*

Tank brush with 1.5" stiff black polyester bristles. Connects to Compact Extension Handle (HMS1517).

Equipment Decon Station System *HMK1080*

Decontaminate responder equipment thoroughly and easily with the Equipment Decon Station. At a working height of 36", this durable, portable decon station is ready whenever and wherever. Water runs through the grated table and is collected in the pool below. The station is set up by unfolding the containment pool and attaching the legs to the table.

HM1080 Equipment Decon Station (only)

HM1081 Containment Pool (only)

Each System Contains:

- Decon table (2' x 4') with detachable legs
- Containment pool (2.5' x 5' x 4')
- Three brushes: 5" round, 3" x 10" short handle, and 1.5" x 10.5" utility
- Adjustable handheld sprayer
- Mesh carry bag for brushes and legs

A Back Saver!

Easily clean equipment at this elevated decon station.

Telescoping Shovel *HMS1511*

This compact shovel is ideal for spill kit applications as well as a wide variety of other uses. The shovel telescopes quickly, expanding from 24" to 36" and collapses for easy storage.

Two-Piece Safety Shovel *HMS1512*

This 14" wide, safety shovel is versatile, lightweight and will not rust or corrode. The patented two-piece construction allows you to disassemble for easy storage.

Telescoping Boom Hook *HMS1513*

Extension utility handle with fixed hook. Expands from 6'10" to 11'9".

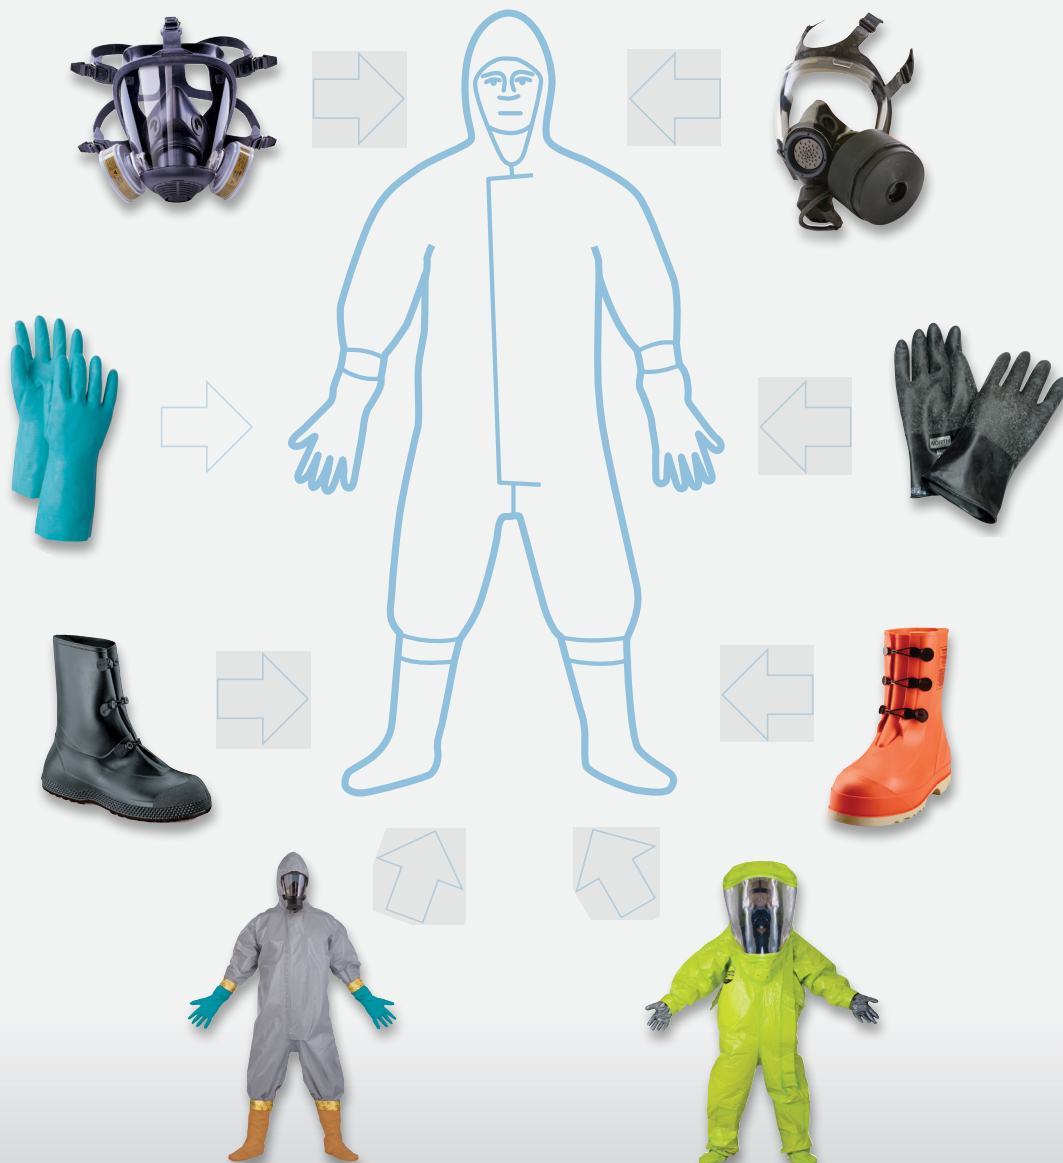

DQE is committed to doing PPE right

We understand that PPE must meet your individual needs and preferences. From EMS and law enforcement to firefighters and HazMat technicians, PPE needs to protect against the various hazards emergency responders confront. In addition to being the right protection level, PPE must be readily available, sized, configured, and packaged in the most convenient way possible.

Custom PPE Ensembles

You can customize PPE ensembles and package them in various types of protective containers to help extend their life and fit your storage needs. Choose which suits, gloves, boots, and respirators you need and DQE will do the rest. Customization makes it easy for you to grab protection at a moment's notice. PPE ensembles can be configured for specific field applications. Contact our customer service team to get started.

Protective Clothing

DQE offers some of the most functional and essential protective suits and kits designed for various decontamination, emergency management, and response needs and budgets. While DQE has numerous standard configurations, all suits, gloves, boots, and accessories can be purchased separately or custom kitted to fit your needs. Visit www.dqeready.com to view our complete line of HazMat suits and accessories.

Tychem® TK Level A Suit

Fully encapsulated Level A suit that provides one of the broadest ranges of chemical protection available; successfully tested against more than 260 chemicals. Comes standard with extra wide three-layer faceshield (PVC 40mil/Teflon® 5 mil/PVC 20 mil), attached internal Barrier® gloves, attached outer Viton® gloves, expanded back (accommodates SCBA), gas-tight zipper closure, double storm flap over zipper, attached hood, outer boot flaps, knee wear pads, two exhaust valves, and internal adjustment belt. Available in either front or rear entry. Available in sizes S-4XL.

HM2102 Front Entry

HM2103 Rear Entry

HM2102T Training Suit- Front Entry

HM2103T Training Suit- Rear Entry

AEL# 01SP-01-ENSE

Training Suit **HM1225**

Ideal for training use, this inexpensive and reusable hooded Zytron® 100 XP suit with attached booties provides splash protection for wet training drills and gives users the feel of full personal protective equipment. Purchase gloves, boots, and boot liners separately (see page 28-29). Available in sizes S/M, L/XL, 2XL/3XL, 4XL.

NOTE: Reusable for training purposes only.

Tychem SL Coverall **HM1201**

The chemical protective suit that responders rely on for dependable and economical protection against a broad spectrum of hazardous chemicals and particles. This lightweight fabric is made of Tyvek® laminated with chemical-resistant Dow Saranex 23P film which helps make the suit rugged and durable, with reduced tears and abrasion risk. It comes standard with sealed seams and storm-flapped zippers. Available in sizes S-4XL.

PERSONAL PROTECTION

HazMat Personal Protection Kit *HM4038*

This Zytron® 200 coverall kit shields responders directly involved in HazMat emergency response and victim decontamination. Available in sizes S/M, L/XL, 2XL/3XL, 4XL.

HM1215 Zytron 200 (coverall only)

Each Sealed Kit Contains:

- One laminated, multi-layer hooded coverall with sealed seams, storm flap and integrated booties
- Inner and outer Nitrile gloves
- Boot liners and overboots
- 8 pre-measured ChemTape® strips
- Goggles
- N95 protective mask

Sentry Shield Law Enforcement PPE Kit *LE4058*

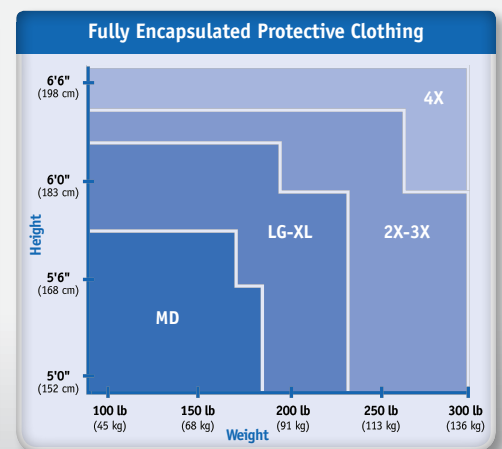

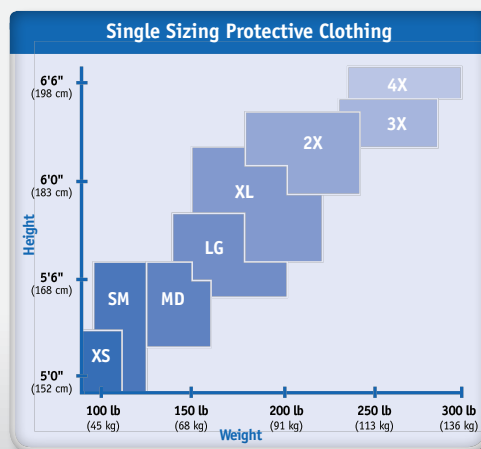

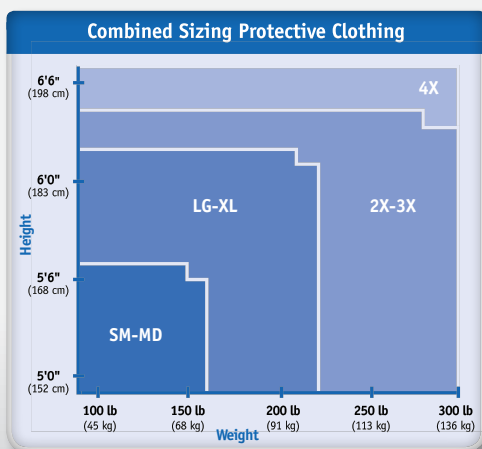

These PPE kits were designed specifically for law enforcement field application. The complete kits are pre-assembled and packaged in a convenient puncture resistant tube that can be stored in the trunk of a vehicle. This suit kit can be used with the addition of a respirator when entering meth labs.

Each Sealed Kit Contains:

- One laminated, multi-layer hooded coverall with sealed seams, storm flap and integrated booties (sizes S - 4XL)
- Inner and outer Nitrile gloves
- Boot liners and vinyl overboots
- 8 pre-measured ChemTape® strips
- Goggles
- Moist Towelette
- N95 protective mask
- Packaged in puncture resistant tube

Sizing Charts

Economy HazMat Personal Protection Kit *HM4039*

This Tychem® F personal protective clothing shields responders directly involved in HazMat emergency response and decontamination. Available in sizes S-4XL.

HM1220 Tychem F (coverall only)

Each Sealed Kit Contains:

- One laminated, multi-layer hooded coverall with sealed seams and storm flap
- Shoe Covers - one size
- Inner and outer Nitrile gloves
- 4 pre-measured ChemTape® strips

Splash Protection Kit *PR325*

Provides light splash protection for support personnel during the decontamination process and clean up. Available in sizes S-4XL.

HM1210 Tychem® QC (coverall only)

Each Sealed Kit Contains:

- One hooded coverall with sewn seams and integrated booties
- Nitrile gloves
- Overboots
- Goggles
- N95 protective mask

On-Scene Protective Kit *HM311*

Ideal protection in the cold zone where minimal exposure to particles and aerosols is anticipated. The suit's breathable material allows for longer wear times and added comfort. Available in sizes S-4XL.

HM1205 ProShield® NexGen® (coverall only)

Each Sealed Kit Contains:

- One hooded, coverall with integrated, slip-resistant booties (no overboots required)
- Nitrile gloves
- Goggles
- N95 protective mask

Can't find the PPE you need?

The search stops with DQE. We work with leading PPE manufacturers including 3M™, DuPont™, Kappler®, Ansell, North®, Tingley, MSA, and Survivair. We will work with you to find the proper type of equipment, brands and sizes of HazMat suits, respirators, and accessories.

Boots, Gloves, and Accessories

All HazMat boots provide extreme protection and excellent traction to ensure the wearer remains safe. DQE chemical resistant gloves protect from a variety of chemicals. With various glove thicknesses available, you can determine the protection level and tactile quality that best fits your needs.

HazMat Overboot

HM1250

Stretch latex overboot is 12" in height and 15 mil thick. Size XL.

AEL# 01SP-02-FTWR

Economy HazMat Overboot

HM1253

The perfect rigid-sole boot for low-level decon operations. Non-steel toe. Available in whole sizes 9-12. Other sizes available via special order.

AEL# 01SP-02-FTWR

Vinyl Overboot

HM1260

An extra layer of protection for various applications. They are excellent for use in spill cleanups. Slip overboots on easily over most shoes and boots. Elastic top for a secure and snug fit. 100% waterproof. Available in size L (fits over men's sizes 9-11)

AEL# 01SP-02-GRMT

Tingley HazProof® Response Boot

HM1254

Made of special polymer material, this comfortable boot meets the protective footwear chemical permeation requirements of NFPA 1991 Standard on Vapor - Protective Ensembles for Hazardous Materials Emergencies 2005 Edition. The HazProof boot has also been tested to Military Standard 282 and will provide protection against certain chemical warfare blister and nerve agents. Available in sizes 7-13.

AEL# 01SP-02-FTWR

North® SF HazChem Overboot

HM1252

This latex-free boot features a highly durable injection-molded construction with tabbed grips and elastic loops. This one-piece design helps eliminate leaks. Slip resistant, self-cleaning outsole. Available in men's size M (9-10), L (11-13) and XL (14-15).

AEL# 01SP-02-FTWR

North® HazMat Boot Liners

HM35350

3mm thick inner boot liners provide added safety and a temporary barrier when doffing contaminated protective clothing. Box of 50 (25 pair).

Nitrile Glove – 7 mil

HM3716

"Exam" style gloves provide superior tactile quality. Excellent inner glove when paired with 16 mil Butyl. Available in sizes S, M and L. Box of 100 gloves.

AEL# 01VT-02-GLOV

North® Butyl Glove – 7mil

HM37184

Butyl excels as a chemical barrier except against petroleum and other hydrocarbons. Perfect inner glove when used in conjunction with 16 mil Nitrile. Smooth finish for tactile quality. Available in sizes M, L and XL.

AEL# 01VT-02-GLOV

Nitrile Glove – 16 mil
HM3717510

Lined, nitrile “case hardened” composition provides good chemical resistance against petroleum and hydrocarbon based chemicals. Perfect outer glove when used with 7 mil Butyl inner glove. Available in size 10.

AEL# 01VT-02-GLOV

Two layers of gloves are ideal. For superior protection use a combination of Nitrile and Butyl rubber.

North® Butyl Glove – 16 mil
HM3718

Tough outer glove with rough finish for superior grip. Butyl excels as a chemical barrier. Perfect outer glove when used with 7 mil Nitrile inner glove. Available in sizes 9, 10 and 11.

AEL# 01VT-02-GLOV

Silver Shield® Gloves/Glove Liners **HM3719**

Ideal for spill cleanups, hazmat control operations and medical laboratories. Resists permeation and breakthrough by more toxic/hazardous materials than any other type of glove. Made from Norfoil, a lightweight, flexible laminate.

AEL# 01VT-02-GLOV

FYI: Leaks are most likely to occur where tape is used to seal gloves and boots to the chemical-resistant suit. Reduce this occurrence by folding excess material flat before taping.

ChemTape® Roll **HM410**

Used to seal gloves and boots to a chemical-resistant suit, Kappler® ChemTape® provides superior chemical resistance and adhesion. 60-yard roll.

AEL# 01ZA-06-TAPE

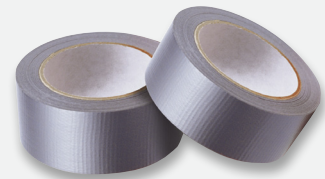

Safety Glasses **HM3730**

Interlocking sideshield system offers all-around protection from flying particles. Large, clear lens provides a wide viewing field.

Duct Tape Roll **HM400**

Provides seal protection and is good for attaching gloves and boots to protective suits. 30-yard roll.

Safety Goggle **HM3720**

Protects eyes against chemical exposure. These soft-sided goggles are non-vented with a clear lens and frame, and anti-scratch lenses.

ChemTape® Strips **HM410S**

Easy-to-use, pre-cut strips. Dimensions: 18" Long x 1 7/8" Wide. Box of 24 strips.

AEL# 01ZA-06-TAPE

Respiratory Protection

There is a variety of respirators for every individual need and application. From escape masks and APRs to PAPRs, SARs, and SCBAs. DQE provides respirators that are comfortable, reliable, and offer broad protection against a range of hazards. Need a specific type of respirator or accessory? DQE can help. Call the DQE sales team at 1-800-355-4628.

Survivair® OptiFit™ Air Purifying Respirator (APR) HM5400

Includes full-face mask and two multi-contaminant canister filters (see below). Available in S, M, and L.

Use with:

HM5003 Multi-contaminant filter, 6 per box

AEL# 01AR-06-DISP

MSA Millennium® CBRN Gas Mask HM5450

This NIOSH CBRN approved gas mask has a wide field of vision with flexible, one-piece polyurethane lens. Dual-canister mount. CBRN canister (sold separately) contains chemical sorbents and P100 filter to attract, retain, and neutralize contaminants. Available in S, M, and L.

Use with:

HM5451 MSA Millennium® filter - CBRN

AEL# 01AR-02-APRC

North® CBRN Emergency Escape Respirator HM5460

This NIOSH CBRN approved emergency escape respirator has a CAP 2, 30 minute rating. The respirator goes on quickly and quick-fit size adjustment to fit the majority of adults. Comes assembled in a sealed inner pouch in a compact nylon carry bag.

3M Breathe Easy™ Powered Air Purifying Respirator (PAPR) HM5500A

This respirator provides protection against a wide range of chemical agents. Lightweight, disposable hood provides many advantages over Butyl rubber hoods and eliminates fit-testing altogether. Cleanliness, infection control and greater comfort make this PAPR a popular choice. 3M Breathe Easy includes Tychem® hood, blower and breathing tube assembly, NiMH rechargeable battery, and three FR-57 canister filters. Battery charger sold separately.

- HM5500LA** Same as above, except with disposable Lithium battery:
Up to 12-hour of use
- HM5502** Replacement hoods, 3 per pack
- HM5506** FR-57 Multi-contaminant canister filter, 6 per box
- HM5507** High-efficiency P100 filter (ideal for training)
- HM5508** NiMH rechargeable battery
- HM5509** Lithium non-rechargeable battery
- HM5510** Single-unit NiMH battery charger
- HM5503** Breathing tube assembly

3M Breathe Easy™ PAPR System-CBRN HM5550

This complete NIOSH CBRN certified powered air purifying respirator system helps provide protection against CBRN particulates, gases, and vapors. It is uniquely designed for first responder, first receiver, and public health professionals. Lightweight, Butyl rubber hood provides a wide field of vision with no fit test requirements. Continuously filtered airflow for maximum comfort helps workers focus on their jobs for longer periods. System includes Butyl rubber hood, blower and breathing tube assembly, NiMH rechargeable battery, and 3 RBE-57 canister filters. Up to 8 hours of use and up to 90% charged in 2 hours. Battery charger sold separately.

- HM5550L** Same as above, except with disposable Lithium battery: Up to 12 hours of use
- HM5552** Butyl Rubber Hood
- HM5556** RBE-57 Multi-Contaminant Canister - CBRN
- HM5557** Training Cartridge
- HM5508** NiMH rechargeable battery
- HM5509** Lithium non-rechargeable battery
- HM5510** Single-unit NiMH battery charger

FIRE REHAB

37°C®

37°C Rehab Products maintain your 37°C (98.6°F) core body temperature. Perform at your best and **KEEP YOUR CORE™**.

All 37°C rehab products are designed to support the NFPA 1584 Rehab Standard, making it easier to maintain high activity levels while ensuring emergency responder safety.

Rehab Packages

Fire department rehab is a vital firefighting service that provides firefighters and other emergency personnel with immediate medical attention at the scene of an emergency or training exercise to make sure that they don't deteriorate to the point where it affects the safety of any other members.

These five different rehab packages make it easy for you to buy the products you need for a rehab area.

Rehab Shelter Package

RHK1000

A rehab shelter, folding table, chairs and additional supplies for establishing a rehab area.
(page 33)

Core Warming Package

RHK3000

Heater, blankets, and change-out clothing to help quickly warm up when out in the cold.
(page 35)

Core Cooling Package

RHK2000

Misting products, cooling chairs and towels, and change-out clothing to keep cool on the job
(page 34)

Hygiene Package

RHK4000

Toilet system, privacy screens, and cleaning supplies to remove the grime of the job and provide a sanitary facility for firefighters
(page 36)

Complete Rehab Solution Package **RHK5000**

All four rehab packages are combined to form a comprehensive rehab equipment solution.

Additional package information available at www.dqeready.com/37C.

Rehab Shelter Package *RHK1000*

Package Contains:

RH3000	Rehab Area Shelter
RH2013	Rehab Area Folding Table
RH2003	Rehab Relaxation Chair (4 each)
MC4047	Folding Chair (2 each)
MC4046	Army Cot
RH2020	Rehab Area Toolbox
RH3100	Rehab Shelter Light (2 each)
HM1070	Extension Cord
HM1071	3-Way Power Adapter
HM375	Sack-it™ Clean-Up Dispenser

Rehab Area Shelter *RH3000*

Provides shade and protection from the elements. Rust-resistant frame, and the water and fire-resistant fabric meets CPAI-84 requirements.

- 10' x 10' white canopy stays attached to the frame for quick setup
- "REHAB" printed on two sides of shelter for easy identification
- Four removable sidewalls provide additional sun and wind protection
- Roller bag included

AEL# 19GN-00-HSSF

Rehab Area Folding Table *RH2013*

Durable and portable folding table. Open size: 24"W x 48"L x 29"H.

Rehab Relaxation Chair *RH2003*

Extra wide with cushioned armrest, back, and seat. Durable nylon fabric, steel collapsible frame. Seat height: 18". Weight limit: 500 lb.

Folding Chair *MC4047*

Compact, sturdy chair. Folds to 1" thick. Seat height: 17". Open size: 16"W x 17"L x 29"H. Weight limit: 300 lb.

Army Cot *MC4046*

Cot with enhanced stability and compact storage. Steel frame. 100% polyester with PVC backing. Open size: 77"L x 28"W x 18"H. Weight Limit: 375 lb.

Rehab Shelter Light *RH3100*

Hanging fluorescent light. High-impact lamp protector included. Horizontally or vertically hanging hooks. 15 watt. 7,000 hour bulb included.

RH3101 Replacement Bulb

Extension Cord *HM1070*

Safe for outdoor use for supplies requiring electricity. Length: 50'.

Sack-it™ Clean-up Dispenser *HM375*

See Sack-it HM375, page 14.

Rehab Area Toolbox *RH2020*

Compact plastic tote containing supplies for setting up a rehab area and evaluating responder medical status. The toolbox contains:

Rehab Resource Guide *RH2023*

Practical resource on setting up a rehab area and medical conditions that may be encountered during a response. Spiral bound. Durable, water and tear-resistant paper. Toolbox contains four.

Rehab ID Vests *RH2027*

Lime green vests with reflective stripes. "REHAB" printed on front and back. Durable nylon mesh material. Toolbox contains four.

Rehab Area Signs *RH2021*

Pack of five weather-resistant signs designate areas for Medical Monitoring, Gear Drop, Check In/Out, Rest and Recovery, and EMS Treatment. Toolbox contains one pack.

Check In/Out Notepad *RH2024*

Record names, department, unit, and company of emergency responders reporting to rehab. 20 pages. Set of three. Toolbox contains one set.

Medical Monitoring Notepad *RH2025*

Record vital signs, medical status, and rehab measures taken. 20 pages. Set of three. Toolbox contains one set.

Rehab Timing Clock *RH2022*

Electronic clock with large backlit display for referencing rehab area check in and out time. Toolbox contains one.

Core Cooling Package *RHK2000*

During hot summer months, keep cool with Core Cooling products.

Package Contains:

- RH7000** Misting Rehab Shower
- RH2001** Kore Kooler® Rehab Chair (2 each)
- RH5000** Misting Rehab Fan
- RHK2004** Core Cooling Kit (10 each)
- RH2005** Core Cooling Towels
- RH2006-XL** Change-Out T-Shirts - Size XL
- RH2006-3XL** Change-Out T-Shirts - Size 3XL

Misting Rehab Shower *RH7000*

Convenient and portable, this shower incorporates specially designed misting nozzles that produce tiny, 10 micron water droplets that evaporate quickly in hot, dry air, resulting in a decrease in air temperature. Six mist nozzles in a 360° configuration. Dimensions: assembled 73" H x 27.5" W. Weight: 10 lb.

 AEL# 19ZA-06-COOL

Kore Kooler® Rehab Chair *RH2001*

Provides an effective means of lowering body temperature through hand and forearm immersion. Seat height: 16". Chair weight: 11 lb. Weight limit: 300 lb. Vented carrying bag and two reservoir bags included.

RH2002 Replacement Bags - 50 per box

AEL# 19ZA-06-COOL

Misting Rehab Fan *RH5000*

Reduce air temperature by up to 35°F. This industrial quality fan sits on top of a ten gallon cooler (included), and cools a 180 square foot area for five hours on ten gallons of water.

 AEL# 19ZA-06-COOL

Core Cooling Kit *RHK2004*

Target cooling for fast heat relief. This kit eliminates the need for sharing buckets and re-sanitizing towels between users. Expand the collapsible bucket, fill with cool water, and begin cooling with Core Cooling Towels. Contains one disposable bucket and two, 17" x 26" Core Cooling Towels.

AEL# 19ZA-06-COOL

Core Cooling Towels *RH2005*

Simply rinse with water, wring out, and apply to skin around the head, neck, chest or forearms for quick core cooling. Box contains ten, 17" x 26" Core Cooling Towels. Made of patented PVA Chamois cooling material.

AEL# 19ZA-06-COOL

Change-Out T-Shirts

Cotton-polyester t-shirts to change into during the rehab process to keep cool and dry. Pack of six.

RH2006-XL Size XL

RH2006-3XL Size 3XL

AEL# 08D3-01-CLOM

Core Warming Package **RHK3000**

Warm up quickly with Core Warming products.

Package Contains:

RH5100	Rehab Area Heater
CTMC40091	Blanket (10 each)
HM701B	Emergency Warming Blankets (5 packs)

Hygiene Package *RHK4000*

Remove the grime of the job and provide a private sanitary facility.

Package Contains:

- MC4051** Portable Toilet System
- MC4052-50** Portable Toilet Refill GO anywhere™ Kits
- NS-1** Hand Sanitizing Wipes
- MC4022** Privacy Screen (2 each)
- RH2012** Rubber-Soled Slippers
- CTMC40053** Body Wipes (24 each)
- HM705** Dry-it™ Disposable Towels

Hand Sanitizing Wipes *NS-1*

Sanitary hand wipes. Pack of 100.
AEL# 09MS-03-DSIN

Privacy Screen *MC4022*

Lightweight, collapsible privacy screen that sets up quickly. The water-resistant fabric is easily replaced when soiled (one replacement screen is included). PVC frame: 70"H x 65"W. Some assembly required.

MC4022RS Replacement Fabric, box of 3

Rubber-Soled Slippers *RH2012*

Provides safety when walking around a rehab area without work boots. Terry cloth fabric with rubber soles. Pack of six pair.

AEL# 08D3-01-CLOM

Body Wipes *CTMC40053*

Heavy-weight, polyester blend washcloths that contain a rinse-free cleansing solution to remove dirt and grime. Pack of eight.

AEL# 09MS-03-DSIN

Dry-it™ Disposable Towels *HM705*

Versatile, disposable, bath-sized towels that are soft enough for skin and strong enough for clean-up. Roll of 100, 19" x 38" towels packaged in an easy-to-use dispenser.

Portable Toilet System *MC4051*

Provides a private location for a clean, sanitary restroom. The Portable Toilet System folds into an easy-carry backpack and weighs only 17.5 lb for maximum portability. Contains: toilet, privacy shelter tent, backpack carry bag, and 15 Portable Toilet WAG BAGs.

AEL# 19GN-00-HSSF

Portable Toilet Refill GO anywhere™ Kits

Contain a powder waste treatment that turns liquid waste to a gel for easy, odor-free disposal. The kits include toilet paper and a hand sanitizer and provide all products needed in a restroom.

- MC4052-12** Box of 12
- MC4052-50** Box of 50
- MC4052-100** Box of 100

Fire Rehab Accessories

Kore Kooler Rehab Chair (RH2001) sold separately.

Kore Kooler® Rehab Chair Sun Shade RH2000

Quickly attach this Sun Shade to your Kore Koller Rehab Chair for instant relief from the direct sun. The Sun Shade has a tenting shaft that allows for easy adjustment for sun-shielding coverage. Compact design minimizes obstruction with other users. Includes a carry bag.

Pee-Wee® Unisex Urine Bag RH4001

A safe, sanitary, convenient, biodegradable way to 'pee' when plumbing's not available. Includes a waste gelling/deodorizing agent inside the bag. Slip resistant unisex collar can be used by men or women. Snap-close bag--no spills, no contact. Gels 24 oz. of liquid waste. Biodegradable bag can be disposed of in normal trash. Box of 50.

 AEL# 19GN-00-HSSF

Response Support

General products for first responders.

Wobble Light *RP4601*

Bright, convenient, and virtually indestructible; the 36" tall Wobble Light® is a highly durable work light that takes a severe beating and keeps on performing. Shock absorber protects bulb from strikes and jarring. Internal ventilation system keeps light cool enough to touch.

Specifications:

- 18" W x 36"H
- Requires a standard 110-volt power source
- String together in a series or use individually
- 175-watt Metal Halide, 20,000 lumens
- Diameter: 40-56'
- Weight: 27 lb

AEL# 08D2-01-TDCS

FlareAlert™ Kit

An innovative and environmentally friendly alternative to dangerous incendiary flares. The FlareAlert is a weather resistant, battery operated LED safety flare visible for miles from both the ground and air. 100,000-hour LEDs. Includes 6 lights, 6 bases and carry bag.

RP4701 Red

RP4702 Yellow

Specifications:

- Diameter: 4.125"
- Height: 1.75"
- Weight: 5.2 oz (without batteries)
- Battery Type: 2 AA alkaline batteries (not included)

AEL# 08D2-01-TDCS

FlareAlert™ Cone Adapter *RP4703*

FlareAlert Cone Adapters increase the versatility of FlareAlerts by making them stand-alone devices for the tops of cones or weighted bases.

Specifications:

- Contain built in magnets that attach to the metal Cone Adapter
- Secured on the top of a cone, or weighted base to make a ground stand
- Each Cone Adapter can hold up to two FlareAlerts at once

AEL# 08D2-01-TDCS

Glow Light Sticks - Green *RP4710*

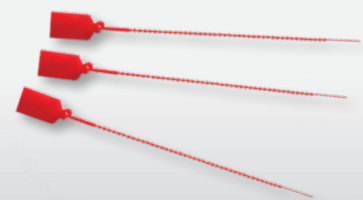

These green light sticks glow for 8-12 hours, providing a light source for many different situations. An attached hook allows for hanging from clothing, equipment, etc. To activate the glow stick, simply snap and shake it.

AEL# 08D2-01-TDCS

Safety Seals *RP700*

These tamper-evident plastic seals have a variety of uses including securing first aid cabinets, crash carts, containers holding valuable or sensitive documents. No tools are needed to lock the seal and it is quickly removable by hand.

Luminite Inflatable Light Tower

The Luminite Inflatable Light Tower sets up in seconds and provides portable light for numerous applications, such as lighting for hazardous material spill sites, emergency rescues, field hospitals or emergency shelters. The tower takes seconds to inflate and achieves full illumination in under 3 minutes. The 875 Watt Metal Halide bulb lights an area the size of a football field with 360 degrees of ambient light.

DQE can customize

a wide variety of products for your specific needs. From custom showers and pools to specialty PPE kits, we can accommodate virtually any request.

Custom products include:

- PVC Decon Showers
- Collapsible Pools
- Water Collection Tanks/Bladders
- Tarps
- PPE Kits
- Identification and Cooling Vests
- Patient Privacy Kits

Each custom product begins with your request.

Pricing and availability is determined based on your exact requirements. Our custom product development team can even provide suggestions if you're not exactly sure of what you want. Just give us a call and we'll discuss all the options. Custom orders may require a security deposit to process. These orders generally require more lead time than our off-the-shelf orders, but we will work as quickly as possible to meet your timeline.

DQE Information and Policies

DQE Manufacturing Warranty

Products manufactured by DQE carry a lifetime warranty against manufacturing and material defects. In addition, DQE offers one free replacement part over the life of any shower we manufacture (part code from product insert required). Warranties for products manufactured by companies other than DQE are subject to the limits and restrictions listed by the respective manufacturer. Contact DQE for details on specific manufacturer warranties. DQE reserves the right to deny warranty coverage if product has been mishandled or abused. DQE reserves the right to replace or repair a warranted product at its discretion.

Orders

All orders are subject to approval by DQE Inc., Fishers, IN. Orders will be acknowledged within 24 business hours of receipt and can be placed by mail, phone or fax with VISA/Mastercard/Discover/AMEX or purchase order.

Prices

Prices are net and subject to change without notice. The pricing in effect on the date the order is received is the amount that will be charged.

Shipping

All orders ship FOB shipping point. Shipping and insurance charges are paid by the customer. We cannot deliver to a PO, APO or FPO address.

Payment terms

Payment on purchase orders is due within 30 days of order. Payments after 30 days will be assessed a fee of 1.5% per month on the balance.

Taxes

Sales or other taxes are added to invoice as required. Tax exempt customers must include proof of sales tax exemption with order.

Cancellations

Cancellations can be made if an order is open; product material has not been committed to at the factory or with a vendor; and the product is not in an active shipping status or closed.

The DQE guarantee

DQE guarantees satisfaction for every product it sells. If you are not completely satisfied with any product (custom orders excluded) purchased from DQE, return it for a full credit (some exclusions may apply).

Products manufactured by DQE carry a lifetime warranty against manufacturing and material defects. In addition, DQE offers one free replacement part over the life of any shower we manufacture (with part code from shower instruction sheet). Warranties for products manufactured by companies other than DQE are subject to the limits and restrictions listed by the respective manufacturer. DQE reserves the right to deny warranty coverage if product has been mishandled or abused. DQE reserves the right to replace or repair a warranted product at its discretion.
