

DECON ACCESSORY GUIDE

Use this guide to help find decontamination accessories that will enhance your facility's decontamination capabilities.

1. Choose Your Shower System

DQE offers a wide range of portable decontamination systems that are easy to set up, clean, and pack away. Whether you need full privacy, partial privacy, open systems for gross field decon or non-ambulatory decon, we have you covered! DQE systems come with a shower, collection pool, and elevation grid(s), although items can be purchased separately.

Decontamination Shower Systems

Standard Decontamination
Shower System
HMK1101A | HMK1101S

Quick Response Decon
Shower System

RV100

Fire Hose Reducer Coupling
with Hose
HM208 | HM208-25

Fire Hose Reducer
Coupling
HM210 | HM210-25

3. Keep Wastewater Contained

It is important to contain the decon wastewater during the decon event. DQE carries a collapsible water containment bladder in various sizes (custom sizes available) as well as a simple, clean 55-gallon barrel.

Containment Tanks

Flexible Wastewater Tank
HM150B | HM1000B

Decon Wastewater Barrel
HM450

4. Organize Your Decon Area

Using tarps, zone tape and waste receptacles will help keep the decon area tidy and organized for safety and efficiency.

Decon Area Organization Supplies

Economy Ground Tarp
HM1030

Equipment Protection Mats
HM1031

Zone Tarp
HM1035|HM1036|HM1037|HM1038|HM1039

Decon Elevation Grid
HM1023S|HM1023

Zone Tape - Hot, Warm, Cold
HM4071|HM4072|HM4073

Hazardous Materials - Do Not
Enter Tape
HM405

Sack-It Clean-Up
Dispenser
HM375

Decon Bucket with Lid
HM350

5. Need More Privacy?

Add privacy during the decon process or for post-decon evaluation in the field.

Privacy Supplies

Heavy Duty Privacy Screen
MC5032

Doff-it® Personal Privacy Kit
